

Snowsport England

SnowSafe Adults Safeguarding Adults' Policy

July 2024

Snowsport England would like to acknowledge the support of the Ann Craft Trust in the writing of this Policy

The Policy is correct at the time of publication (June 2021) and will be reviewed every 3 years or when there is a significant change in legislation.

Section 1: Safeguarding Adults' Policy

Introduction

Everyone who participates in the activities of Snowsport England is entitled to do so in an enjoyable and safe environment.

Snowsport England is committed to devising and implementing policies so that everyone in the sport accepts their responsibility to safeguard children and adults from harm and abuse. This means following procedures to protect them and reporting any concerns about their welfare to appropriate authorities.

The aim of the policy is to promote good practice, help clubs, coaches and everyone in our sport understand the issues involved, and implement the safeguarding measures necessary to provide all participants with appropriate safety and protection whilst involved in the activities of Snowsport England. Further guidance is provided in our SnowSafe Adults Procedures [on our website](#). These documents aim to allow staff and volunteers to follow good practice and make informed and confident responses to specific safeguarding and adult protection issues and will help to maintain professionalism and high standards of practice.

Snowsport England has a separate policy for children – **SnowSafe Policy for Children and Young People** and also guidance and templates which can be found in the **SnowSafe Toolkit for Children and Young People**.

Snowsport England is the National Governing Body for snowsport in England. This Policy and the associated procedures are designed to cover all aspects of Snowsport England's work with adults and apply to all clubs and organisations affiliated to Snowsport England. Snowsport England will encourage and support all affiliated organisations to adopt and demonstrate their commitment to the principles and practice of equality as set out in our Diversity Action Plan. Snowsport England and all affiliated organisations have a duty of care to safeguard all involved in sport from harm. All children, adults and others who may be particularly vulnerable must be taken into account.

Snowsport England is committed to Safeguarding Adults in line with national legislation and relevant national and local guidelines. We will safeguard adults by ensuring that our activities are delivered in a way which keeps all adults safe. Snowsport England is producing an implementation plan for safeguarding adults which will be introduced over the next 18 months. We aim to be fully compliant with this Policy by January 2023 as compliance with some elements, for example safeguarding training in clubs, will take some time to achieve.

Snowsport England is committed to creating a culture of zero-tolerance of harm to adults which necessitates: the recognition of adults who may be at risk and the circumstances which may increase risk; knowing how adult abuse, exploitation or neglect manifests itself; and being willing to report safeguarding concerns.

This extends to recognising and reporting harm experienced anywhere, including within our activities, within other organised community or voluntary activities, in the community, in the person's own home and in any care setting.

Snowsport England is committed to best safeguarding practice and to uphold the rights of all adults to live a life free from harm from abuse, exploitation and neglect.

Safeguarding Adults' Policy Statement

Snowsport England acknowledges our duty of care to safeguarding and protecting the welfare of all participants and is committed to ensuring safeguarding practice reflects statutory responsibilities, government guidance and complies with best practice.

The Policy recognises and believes everyone has the right to live free from abuse or neglect regardless of age, ability or disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, socioeconomic status, sex or sexual orientation.

Snowsport England is committed to creating and maintaining a safe and positive environment and an open, listening culture where people feel able to share concerns without fear of retribution.

Snowsport England acknowledges that safeguarding is everybody's responsibility and is committed to prevent abuse and neglect through safeguarding the welfare of all adults involved.

Snowsport England recognises that health, well-being, ability, disability and need for care and support can affect a person's resilience. We recognise that some people experience barriers, for example, to communication in raising concerns or seeking help. We recognise that these factors can vary at different points in people's lives.

Snowsport England recognises that there is a legal framework within which sports need to work to safeguard adults who have needs for care and support and for protecting those who are unable to take action to protect themselves and will act in accordance with the relevant safeguarding adult legislation and with local statutory safeguarding procedures.

Actions taken by Snowsport England will be consistent with the principles of adult safeguarding ensuring that any action taken is prompt, proportionate and that it includes and respects the voice of the adult concerned.

July 2024

Purpose

The purpose of this policy is to demonstrate the commitment of Snowsport England to safeguarding adults and to ensure that everyone involved in Snowsport England is aware of:

- The legislation, policy and procedures for safeguarding adults.
- Their role and responsibility for safeguarding adults.
- What to do or who to speak to if they have a concern relating to the welfare or wellbeing of an adult within the organisation.

Scope

This safeguarding adult policy and associated procedures apply to all Snowsport England staff and volunteers working for us and to members of all clubs and organisations affiliated to us or taking part in activities of any of these organisations. It applies to all Snowsport England registered coaches and instructors, and non-registered coaches and instructors if working or volunteering in a role for any of the above. For the avoidance of doubt this includes athletes and anyone employed or deployed within the sport in a paid or voluntary capacity whether as an employee or on a self-employed basis.

Commitments

In order to implement this policy Snowsport England will ensure that:

- Everyone involved with Snowsport England is aware of the safeguarding adult procedures and knows what to do and who to contact if they have a concern relating to the welfare or wellbeing of an adult.
- Any concern that an adult is not safe is taken seriously, responded to promptly, and followed up in line with Snowsport England's Safeguarding Adults Policy and Procedures.
- The well-being of those at risk of harm will be put first and the adult actively supported to communicate their views and the outcomes they want to achieve. Those views and wishes will be respected and supported unless there are overriding reasons not to (see the Safeguarding Adults Procedures).
- Any actions taken will respect the rights and dignity of all those involved and be proportionate to the risk of harm.
- Confidential, detailed and accurate records of all safeguarding concerns are maintained and securely stored in line with our Data Protection Policy.
- Snowsport England acts in accordance with best practice advice, for example from Sport England, NSPCC and Ann Craft Trust.
- Snowsport England will cooperate with the Police and the relevant Local Authorities in taking action to safeguard an adult.
- As part of our Safeguarding Adults Implementation Plan, all Board members, staff, officials and volunteers will understand their role and responsibility for safeguarding adults and have completed and are up to date with safeguarding adult training and learning opportunities appropriate for their role.

- Snowsport England uses safe recruitment practices and continually assesses the suitability of volunteers and staff to prevent the employment/deployment of unsuitable individuals in this organisation and within the sporting community.
- Snowsport England shares information about anyone found to be a risk to adults with the appropriate bodies. For example: Disclosure and Barring Service, Police, Local Authority/Social Services.
- As part of our Safeguarding Adults Implementation Plan, when planning activities and events Snowsport England will include an assessment of, and risk to, the safety of all adults from abuse and neglect and designate a person who will be in attendance as a safeguarding lead for that event.
- This policy and the Safeguarding Adults Procedures are reviewed no less than on a three yearly basis and whenever there are changes in relevant legislation and/or government guidance as required by the Local Safeguarding Board or Sport England or as a result of any other significant change or event.

The Care Act 2014 definition relates to “adults at risk” and means protecting an adult’s right to live in safety free from abuse and neglect. The aims of adult safeguarding are to prevent harm and reduce the risk of abuse or neglect to adults with care and support needs.

- However, in a snowsport environment we want to go a step further and ensure we have an inclusive environment, where all adults are welcomed and supported to enjoy our sport.
- Safeguarding must be an integral part of the activities of a club. It is about creating a culture that enables children and adults to participate safely in snowsport. We want all participants to have an enjoyable and fulfilling experience at the club, and this includes adults too.
- Snowsport England also acknowledges that all adults have the right to make decisions for themselves and when we are safeguarding adults, we must understand and respect this right, even if we believe it is the ‘wrong decision’.
- If this is not acknowledged or practiced, it is possible to accidentally cause a different kind of harm by removing a person’s freedom of choice.

Implementation

Snowsport England is committed to developing and maintaining its capability to implement this policy and procedures. In order to do so the following will be in place:

- A clear line of accountability within the organisation for the safety and welfare of all adults.
- Access to relevant legal and professional advice.
- Regular management reports to the Board detailing how risks to adult safeguarding are being addressed and how any reports have been addressed.
- Safeguarding adult procedures that deal effectively with any concerns of abuse or neglect, including those caused through poor practice.
- A Safeguarding Lead (see Appendix 1).
- A delegated Welfare Officer for events/trips/camps/ competitions.
- A Case Management Group with clear Terms of Reference.

- Arrangements to work effectively with other relevant organisations to safeguard and promote the welfare of adults, including arrangements for sharing information.
- Codes of conduct for Board members, Staff, Coaches, Officials, Volunteers and Members and other relevant individuals that specify zero tolerance of abuse in any form.
- Risk assessments that specifically include safeguarding of adults.
- Policies and procedures that address the following areas and which are consistent with this Safeguarding Adults policy.
 - ✓ Safeguarding Children
 - ✓ Bullying and harassment
 - ✓ Social Media
 - ✓ Equality, diversity and inclusion
 - ✓ Safe activities risk assessments
 - ✓ Code of Conducts and a process for breach of these - Staff, Coaches, Officials, Volunteers, Participants/Members, Carers/Personal Assistants
 - ✓ Discipline and grievance
 - ✓ Complaints (and annual satisfaction survey)
 - ✓ Whistleblowing
 - ✓ Safe recruitment and selection (staff and volunteers)
 - ✓ Information policy, data protection and information sharing

Section 2: Supporting Information

Key Points

- There is a **legal duty on Local Authorities** to provide support to 'adults at risk'.
- **Adults at risk** are defined in legislation and the criteria applied differs between each home nation. (see definition of an adult at risk below).
- The safeguarding legislation applies **to all forms of abuse** that harm a person's well-being.
- The law provides a framework for good practice in safeguarding that makes the overall **well-being** of the adult at risk a priority of any intervention.
- The law emphasises the importance of **person-centred safeguarding**, (referred to as '**Making Safeguarding Personal**' in England).
- The law provides a framework for making decisions on behalf of adults who can't make decisions for themselves (**Mental Capacity**).
- The law provides a framework for sports organisations to **share concerns** they have about adults at risk with the local authority.
- The law provides a framework for all organisations to **share information and cooperate** to protect adults at risk.

Safeguarding Adults' Legislation

Safeguarding Adults in all home nations is compliant with United Nations directives on the rights of disabled people and commitments to the rights of older people. It is covered by:

- The Human Rights Act 1998
- The Data Protection Act 2018
- General Data Protection Regulations 2018

The practices and procedures within this policy are based on the relevant legislation and government guidance:

- England - The Care Act 2014
- Care and Support Statutory Guidance 2014 (especially Chapter 14).

Many other pieces of UK and home nation legislation also affect adult safeguarding. These include legislation about different forms of abuse and those that govern information sharing. For example, legislation dealing with:

- Murder/attempted murder
- Physical Assault
- Sexual Offences
- Domestic Abuse/Coercive control
- Forced Marriage
- Female Genital Mutilation

- Theft and Fraud
- Modern slavery and Human exploitation
- Hate crime
- Harassment
- Listing and Barring of those unsuitable to work with adults with care and support needs

Each home nation also has legislation about the circumstances in which decisions can be made on behalf of an adult who is unable to make decisions for themselves.

- England and Wales - Mental Capacity Act 2005
- There are specific offences applying to the mistreatment of and sexual offences against adults who do not have Mental Capacity and specific offences where mistreatment is carried out by a person who is employed as a carer: e.g. wilful neglect and wilful mistreatment.

Definition of an Adult at Risk

The Safeguarding Adults legislation creates specific responsibilities on Local Authorities, Health, and the Police to provide additional protection from abuse and neglect to Adults at Risk.

When a Local Authority has reason to believe there is an adult at risk, they have a responsibility to find out more about the situation and decide what actions need to be taken to support the adult.

The actions that need to be taken might be by the Local Authority (usually social services) and/or by other agencies, for example the Police and Health. A sporting organisation may need to take action as part of safeguarding an adult, for example, to use the disciplinary procedures in relation to a member of staff or member who has been reported to be harming a participant. The Local Authority role includes having multi-agency procedures which coordinate the actions taken by different organisations.

An Adult at risk is:

England (Care Act 2014)

An **adult at risk** is an individual aged 18 years and over who:

- has needs for care and support (whether or not the local authority is meeting any of those needs) AND;
- is experiencing, or at risk of, abuse or neglect, AND;
- as a result of those care and support needs is unable to protect themselves from either the risk of, or the experience of abuse or neglect.

“Vulnerable adult”

The term “vulnerable adult” was introduced in the Consultation Document “Who Decides?” In 1997. It was used in ‘No Secrets’, government guidance to protect vulnerable adults from abuse introduced in 2000.

It has now been replaced with the new definition from the Care Act (2014) of “adults at risk of harm”.

“Adults at risk of harm”

We have now moved away from the terminology of ‘vulnerable adults’ towards ‘adults at risk of harm’, usually shortened to ‘adults at risk’ in policies and procedures. There may also be reference to an ‘adult with a care and support need’.

Snowsport England’s policy and procedures reflect this and include the current definition of adults at risk rather than that of vulnerable adults.

The Care Act 2014 makes it clear that abuse of adults links to circumstances rather than the characteristics of the people experiencing the harm. Labelling groups of people as inherently ‘vulnerable’ is seen to be disempowering.

Abuse and Neglect

Abuse is a violation of an individual’s human and civil rights by another person or persons. It can occur in any relationship and may result in significant harm to, or exploitation of, the person subjected to it. Any or all of the following types of abuse may be perpetrated as the result of deliberate intent, negligence, omission or ignorance.

There are different types and patterns of abuse and neglect and different circumstances in which they may take place.

The Safeguarding Adults Legislation in each home nation defines categories of adult abuse and harm differently, but in England is as follows.

England (Care Act 2014)

1. Physical
2. Sexual
3. Emotional/Psychological/Mental
4. Neglect and acts of Omission
5. Financial or material abuse
6. Discriminatory
7. Organisational / Institutional
8. Self-neglect
9. Domestic Abuse (including coercive control)
10. Modern slavery

Abuse can take place in any relationship and there are many contexts in which abuse might take place; e.g. Institutional abuse, Domestic Abuse, Forced Marriage, Human Trafficking, Modern Slavery, Sexual Exploitation, County Lines, Radicalisation, Hate Crime, Mate Crime, Cyber bullying, Scams. Some of these are named specifically within home nation legislations.

Abuse can take place within a sporting context and the person causing harm might be any other person. For example: a member of staff, a coach, a volunteer, a participant or a fan.

Some examples of abuse within sport include:

- Harassment of a participant because of their (perceived) disability or other protected characteristics.
- Not meeting the needs of the participant e.g. training without a necessary break.
- A coach intentionally striking an athlete
- One elite participant controlling another athlete with threats of withdrawal from their partnership

- An official who sends unwanted sexually explicit text messages to a participant with learning disabilities.
- A participant threatens another participant with physical harm and persistently blames them for poor performance.

Abuse or neglect outside sport could be carried out by:

- A spouse, partner or family member
- Neighbours or residents
- Friends, acquaintances or strangers
- People who deliberately exploit adults they perceive as vulnerable
- Paid staff, professionals or volunteers providing care and support

Often the perpetrator is known to the adult and may be in a position of trust and/or power.

Signs and Indicators of Abuse and Neglect

An adult may confide to a member of staff, coach, volunteer or another participant that they are experiencing abuse inside or outside of the organisation's setting. Similarly, others may suspect that this is the case.

There are many signs and indicators that may suggest someone is being abused or neglected. There may be other explanations, but they should not be ignored. The signs and symptoms include but are not limited to:

- Unexplained bruises or injuries – or lack of medical attention when an injury is present.
- Person has belongings or money going missing.
- Person is not attending / no longer enjoying their sessions. You may notice that a participant in a club has been missing from practice sessions and is not responding to reminders from team members or coaches.
- Someone losing or gaining weight / an unkempt appearance. This could be a player whose appearance becomes unkempt, does not wear suitable clothing for snowsport and there is a deterioration in hygiene.
- A change in the behaviour or confidence of a person. For example, a participant may be looking quiet and withdrawn when their brother comes to collect them from sessions in contrast to their personal assistant whom they greet with a smile.
- Self-harm.
- A fear of a particular group of people or individual.
- A parent/carer always speaks for the person and doesn't allow them to make their own choices
- They may tell you / another person they are being abused – i.e. a disclosure.

Wellbeing Principle

The success of sport, in terms of helping people achieve their potential, making the most of existing talent, and attracting new people to sport relies on putting people – their safety, wellbeing and welfare – at the centre of what sport does.

Duty of Care in Sport Independent Report to Government Baroness Tanni Grey-Thompson DBE, DL.

The concept of 'well-being' is threaded throughout UK legislation and is part of the Law about how health and social care is provided. Our well-being includes our mental and physical health, our relationships, our connection with our communities and our contribution to society.

Being able to live free from abuse and neglect is a key element of well-being.

The legislation recognises that statutory agencies have sometimes acted disproportionately in the past. For example, removing an adult at risk from their own home when there were other ways of preventing harm. In the words of Justice Mumby '*What good is it making someone safe when we merely make them miserable?*' What Price Dignity? (2010)

For that reason any actions taken to safeguard an adult must take their whole well-being into account and be proportionate to the risk of harm.

Person Centred Safeguarding/Making Safeguarding

Personal

The legislation also recognises that adults make choices that may mean that one part of our well-being suffers at the expense of another – for example we move away from friends and family to take a better job. Similarly, adults can choose to risk their personal safety; for example, to provide care to a partner with dementia who becomes abusive when they are disorientated and anxious.

None of us can make these choices for another adult. If we are supporting someone to make choices about their own safety we need to understand ‘What matters’ to them and what outcomes they want to achieve from any actions agencies take to help them to protect themselves.

The concept of ‘Person Centred Safeguarding’/‘Making Safeguarding Personal’ means engaging the person in a conversation about how best to respond to their situation in a way that enhances their involvement, choice and control, as well as improving their quality of life, well-being and safety. Organisations work to support adults to achieve the outcomes they want for themselves. The adult’s views, wishes, feelings and beliefs must be taken into account when decisions are made about how to support them to be safe. There may be many different ways to prevent further harm. Working with the person will mean that actions taken help them to find the solution that is right for them. Treating people with respect, enhancing their dignity and supporting their ability to make decisions also helps promote people's sense of self-worth and supports recovery from abuse.

If someone has difficulty making their views and wishes known, then they can be supported or represented by an advocate. This might be a safe family member or friend of their choice or a professional advocate (usually from a voluntary sector organisation).

Table 1 The Principles of Adult Safeguarding in England

England (Care Act 2014)
<p>The Act’s principles are:</p> <ul style="list-style-type: none"> ● Empowerment - People being supported and encouraged to make their own decisions and informed consent. ● Prevention – It is better to take action before harm occurs. ● Proportionality – The least intrusive response appropriate to the risk presented. ● Protection – Support and representation for those in greatest need. ● Partnership – Local solutions through services working with their communities. Communities have a part to play in preventing, detecting and reporting neglect and abuse ● Accountability – Accountability and transparency in delivering safeguarding.

Mental Capacity and Decision Making

We make many decisions every day, often without realising. UK Law assumes that all people over the age of 16 have the ability to make their own decisions, unless it has been proved that they can't. It also gives us the right to make any decision that we need to make and gives us the right to make our own decisions even if others consider them to be unwise.

We make so many decisions that it is easy to take this ability for granted. The Law says that to make a decision we need to:

- Understand information
- Remember it for long enough
- Think about the information
- Communicate our decision

A person's ability to do this may be affected by things such as learning disability, dementia, mental health needs, acquired brain injury and physical ill health.

Most adults have the ability to make their own decisions given the right support however, some adults with care and support needs have the experience of other people making decisions about them and for them.

Some people can only make simple decisions like which colour T-shirt to wear or can only make decisions if a lot of time is spent supporting them to understand the options. If someone has a disability that means they need support to understand or make a decision this must be provided. A small number of people cannot make any decisions. Being unable to make a decision is called "lacking mental capacity".

Mental capacity refers to the ability to make a decision at the time that decision is needed. A person's mental capacity can change. If it is safe/possible to wait until they are able to be involved in decision making or to make the decision themselves.

For example:

- A person with epilepsy may not be able to make a decision following a seizure.
- Someone who is anxious may not be able to make a decision at that point.
- A person may not be able to respond as quickly if they have just taken some medication that causes fatigue.

Mental Capacity is important for safeguarding for several reasons.

Not being allowed to make decisions one is capable of making is abuse. For example, a disabled adult may want to take part in an activity but their parent who is their carer won't allow them to and will not provide the support they would need. Conversely the adult may not seem to be benefiting from an activity other people are insisting they do.

Another situation is where an adult is being abused and they are scared of the consequences of going against the views of the person abusing them. It is recognised in the law as coercion and a person can be seen not to have mental capacity because they cannot make 'free and informed decisions'.

Mental Capacity must also be considered when we believe abuse or neglect might be taking place. It is important to make sure an 'adult at risk' has choices in the actions taken to safeguard them,

including whether or not they want other people informed about what has happened, however, in some situations the adult may not have the mental capacity to understand the choice or to tell you their views.

Each home nation has legislation that describes when and how we can make decisions for people who are unable to make decisions for themselves. The principles are the same.

- We can only make decisions for other people if they cannot do that for themselves at the time the decision is needed.
- If the decision can wait, wait – e.g. to get help to help the person make their decision or until they can make it themselves.
- If we have to make a decision for someone else then we must make the decision in their best interests (for their benefit) and take into account what we know about their preferences and wishes.
- If the action we are taking to keep people safe will restrict them then we must think of the way to do that which restricts to their freedom and rights as little as possible.

Many potential difficulties with making decisions can be overcome with preparation. A person needing support to help them make decisions whilst taking part in snowsport will ordinarily be accompanied by someone e.g. a family member or formal carer whose role includes supporting them to make decisions.

It is good practice to get as much information about the person as possible. Some people with care and support needs will have a 'One page profile' or a 'This is me' document that describes important things about them. Some of those things will be about how to support the person, their routines, food and drink choices etc. but will also include things they like and don't like doing. It's also important to have an agreement with the person who has enrolled the adult in the sports activity about how different types of decisions will be made on a day to day basis.

If a person who has a lot of difficulty making their own decisions is thought to be being abused or neglected you will need to refer the situation to the Local Authority, and this should result in health or social care professionals making an assessment of mental capacity and/or getting the person the support they need to make decisions.

There may be times when Snowsport England needs to make decisions on behalf of an individual in an emergency. Decisions taken in order to safeguard an adult who cannot make the decision for themselves could include:

- Sharing information about safeguarding concerns with people that can help protect them.
- Stopping them being in contact with the person causing harm.

Recording and Information Sharing

Snowsport England must comply with the Data Protection Act (DPA) and the General Data Protection Regulations (GDPR).

Information about concerns of abuse includes personal data. It is therefore important to be clear as to the grounds for processing and sharing information about concerns of abuse.

Processing information includes record keeping. Records relating to safeguarding concerns must be accurate and relevant. They must be stored confidentially with access only to those with a need to know.

Sharing information, with the right people, is central to good practice in safeguarding adults. However, information sharing must only ever be with those with a 'need to know'. This does **NOT** automatically include the persons spouse, partner, adult, child, unpaid or paid carer. Information should only be shared with family and friends and/or carers with the consent of the adult or if the adult does not have capacity to make that decision and family/ friends/ carers need to know in order to help keep the person safe.

The purpose of Data Protection legislation is not to prevent information sharing but to ensure personal information is only shared appropriately. Data protection legislation allows information sharing within an organisation. For example:

- Anyone who has a concern about harm can make a report to an appropriate person within the same organisation – **always let the Snowsport England Safeguarding Lead know**
- Case management meetings can take place to agree to co-ordinate actions by the organisation

There are also many situations in which it is perfectly legal to share information about adult safeguarding concerns outside the organisation. Importantly personal information can be shared with the consent of the adult concerned. However, the adult may not always want information to be shared. This may be because they fear repercussions from the person causing harm or are scared that they will lose control of their situation to statutory bodies or because they feel stupid or embarrassed. Their wishes should be respected unless there are over-riding reasons for sharing information.

The circumstances when we need to share information without the adult's consent include those where:

- it is not safe to contact the adult to gain their consent – i.e. it might put them or the person making contact at further risk.
- you believe they or someone else is at risk, including children.
- you believe the adult is being coerced or is under duress.
- it is necessary to contact the police to prevent a crime, or to report that a serious crime has been committed.
- the adult does not have mental capacity to consent to information being shared about them.
- the person causing harm has care and support needs.
- the concerns are about an adult at risk living in Wales or Northern Ireland (where there is a duty to report to the Local Authority).

When information is shared without the consent of the adult this must be explained to them, when it is safe to do so, and any further actions should still fully include them.

If you are in doubt as to whether to share information seek advice e.g. seek legal advice and/or contact the Local Authority and explain the situation without giving personal details about the person at risk or the person causing harm or contact the Snowsport England Safeguarding Lead.

Any decision to share or not to share information with an external person or organisation must be recorded together with the reasons to share or not share information.

Multi-Agency Working

Safeguarding adults' legislation gives the lead role for adult safeguarding to the Local Authority. However, it is recognised that safeguarding can involve a wide range of organisations.

Snowsport England may need to cooperate with the Local Authority and the Police including to:

- Provide more information about the concern you have raised.
- Provide a safe venue for the adult to meet with other professionals e.g. Police/Social Workers/Advocates.
- Attend safeguarding meetings.
- Coordinate internal investigations (e.g. complaints, disciplinary) with investigations by the police or other agencies.
- Share information about the outcomes of internal investigations.
- Provide a safe environment for the adult to continue their sporting activity/ their role in the organisation.

Section 3: Appendices

Appendix 1 – Role Description: Snowsport England Safeguarding Lead

The designated person within Snowsport England who has primary responsibility for putting into place procedures to safeguard adults at risk, supporting club and regional welfare officers, where relevant and for managing concerns about adults at risk.

Duties and responsibilities include:

- Working with others within the organisation to create a positive inclusive environment within the sport.
- Play a lead role in developing and establishing the organisation's approach to safeguarding adults and in maintaining and reviewing the organisation's implementation plan for safeguarding adults in line with current legislation and best practice.
- Coordinate the dissemination of the safeguarding adult policy, procedures and resources throughout the organisation.
- Contribute to ensuring other policies and procedures are consistent with the organisation's commitment to safeguarding adults.
- Advise on the organisation's training needs and the development of its training strategy.
- Receive reports of and manage cases of poor practice and abuse reported to the organisation – including an appropriate recording system.
- Coordinate the case management process.
- Manage liaison with, and referrals to, external agencies for example adult social-care services and the police.
- Create a central point of contact for internal and external individuals and agencies concerned about the safety of adults within the organisation.
- Provide advice and support to club and regional welfare officers including recommended training for them.
- Represent the organisation at external meetings related to safeguarding adults.

Appendix 2 - Case Management Groups

Case Management Groups comprise of a select number of individuals with identified and relevant skills, knowledge experience and/or status within the organisation and include at least one member with safeguarding adult expertise. The group's role and decision-making powers need to be embedded within the organisation's governance structure and be linked to related organisational functions such as codes of conduct, and the disciplinary policy and procedures.

The Snowsport England Board should receive regular reports from the Case Management Group, via the Safeguarding Lead, summarising the cases that have been addressed and their outcomes, as well as any issues that require action by Snowsport England e.g. changes to policy or procedures.

Case Management Groups should have clear terms of reference. They may be 'standing committees' who meet regularly or can be brought together as the need arises.

Case Management Group responsibilities include:

- to ratify any actions already taken by Snowsport England Safeguarding Lead including Interim Suspensions
- to initially assess and agree immediate response to a safeguarding case (does there appear to be a case to answer?).
- to identify appropriate 'route' for case (e.g. internal/ disciplinary action alone or referral to statutory agencies plus internal/ disciplinary action).
- to decide the level (from local to national) at which the organisation will deal with the concern.
- to consider the need for an interim suspension order
- to review progress of cases.
- to identify/ communicate learning from cases.

Case Management Groups' membership should include:

- A Chair
- A designated officer (often the designated Safeguarding Lead).
- Co-opted independent safeguarding expertise (e.g. from another Sport or relevant profession such as the Police or Social services).

Appendix 3 – Sources of Information and Support

Action on Elder Abuse

A national organisation based in London. It aims to prevent the abuse of older people by raising awareness, encouraging education, promoting research and collecting and disseminating information.

Tel: 020 8765 7000

Email: enquiries@elderabuse.org.uk

www.elderabuse.org.uk

Ann Craft Trust (ACT)

A national organisation providing information and advice about adult safeguarding. ACT have a specialist Safeguarding Adults in Sport and Activity team to support the sector

Tel: 0115 951 5400
